

Amendments to the Specification

Please amend the Specification and Abstract as shown in the enclosed marked-up Substitute Specification and clean Substitute Specification in accordance with 37 C.F.R. §§1.121(b)(3) and 1.125. In the Substitute Specifications, Applicants have added a paragraph to recite the priority information contained on the filing receipt and have corrected the British standard spelling of “aluminium” to the United States spelling of “aluminum” as requested by the Examiner. In addition, a couple of clerical and typographical errors were corrected. No new matter has been introduced. Applicants request that the pending specification be replaced with the enclosed clean Substitute Specification.
